FAQ

1. What is ORIX Challenge?
ORIX Challenge is the local challenge from the Event Organizer itself. Other than providing services such as corporate financial, equipment rental, automobile rental and leasing, insurance, strategic business and Islamic financing, ORIX now is on board to provide you a challenge. The ISO certified company also provide a big prize for the winner of their challenge. Check out below for more information.

2. What is the Prizes for the Winner?
There will be only one prize for this ORIX category. Champions will win total of RM 5000.

3. Is there any team member limit?
The recommended team members are ideally 4-5 people with different expertise. however please do not exceed 5 members per team.

4. How to interact with mentors?
A special team for ORIX challenges will be available in space apps discord channel. You can chat with them for mentorship.

5. Is it compulsory to create a space apps account?
No. Since this is a collaborative challenge between ORIX Leasing Malaysia Berhad, no Space Apps Account is required and participants are not required to submit their solution to spaceappschallenge.org.

6. Are there any dedicated Challenges or Platform for me to interact with others for my ORIX Challenges?
Definitely! there will be a dedicated Discord Channel for each challenge for you to join. you can discuss with other participants freely and mentors will be available as well at scheduled time. You can find the link from our Homepage website.

7. Where and How can I find a dataset for my ORIX Challenges?
Worry not as the Dataset will be provided for this special ORIX Challenge. However, participants are also free to use the wonder of the internet to search for one.

8.Can I choose more than one challenge? Meaning Can I participate for NASA Challenges and also for ORIX Challenges.
You can, however, can you do it all in 48 hours?

9. Can I be in two teams simultaneously? Both NASA team and ORIX team?
Strictly no, this includes participating in both categories is strictly not allowed.

10. Is this challenge suitable for a newcomer who has very little experience in making apps?
our challenge is for everyone! little experience might give a big impact, who knows?

11. What should I include in the 3 minutes pitching video?
The demo of the project prototype that you are working on using ORIX datasets. You can either present it in presentation slides, standing in front of the camera, or any kind of presentation that you preferred.

12. How to join the conference?
Register for our event and keep yourself updated by checking this website. We will update the webinar link soon!

13. Will I get a certificate for joining?
Yes. E-certificate will be issued for all participants that have attended, including the conference-only participants.
