Cost Effective Web Content Management System Which Fulfil Each And Every Demand

MORE THAN 3,000 USERS

Our clients range from Banks, Wholesale Distributors, Product Makers to Technology Services, regardless of company size.

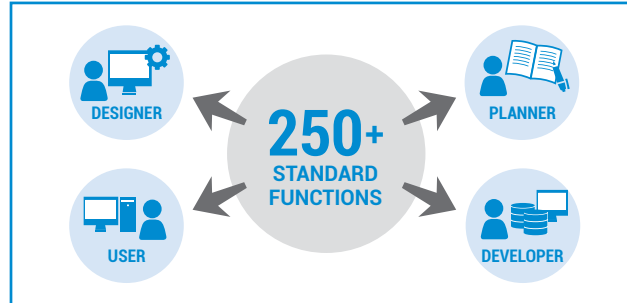

CMS THAT EVOLVED AND PIONEER THROUGH THE CHANGE OF TIME

A PLATFORM TO FULFILL ALL YOUR REQUESTS

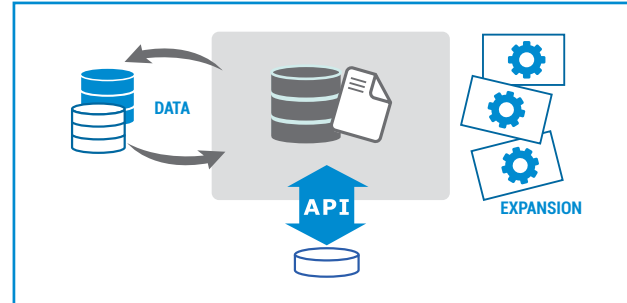

RCMS is the Contents Management System which is based on the thought that "More than 90% of Web construction is possible to be systematized." Converting various contents to Metadata, relate them and you can construct the rich website easily. RCMS keeps on evolving as an advanced Web constructing Platform.

1 ENRICHED MANAGEMENT FUNCTIONS

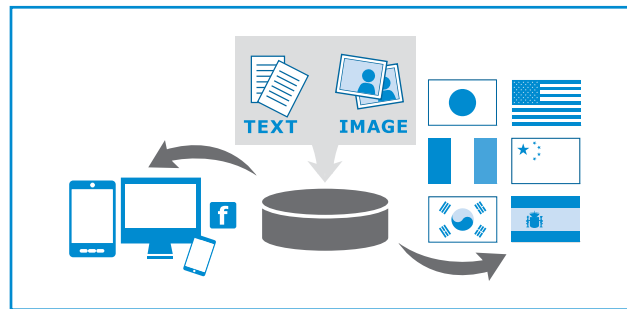

We provide more than 250 standard and management functions, making website constructions easy.

2 FLEXIBLE API FOR DATA COLLABORATION

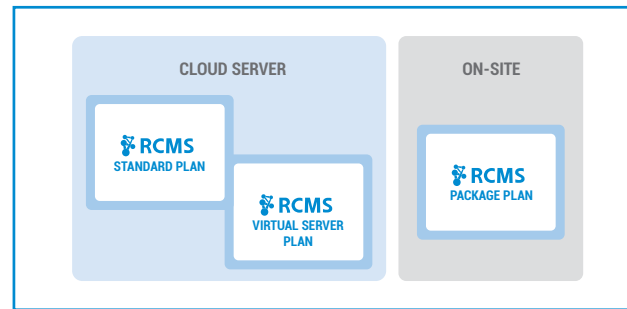

RCMS is developed on the concept of relating external system or cooperate with another developer's cloud services; enabling it to expand your website easily.

3 CREATE MULTILINGUAL WEBSITE

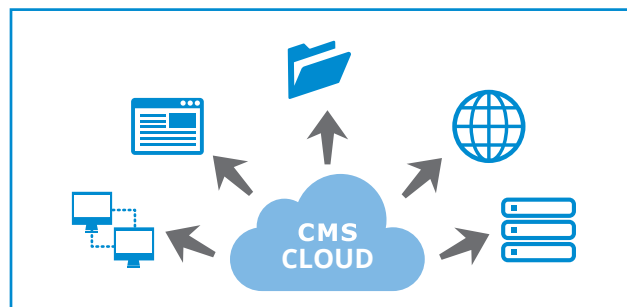

In a corporate website, multi-language of the same content can be inserted in RCMS. Users can choose a default language and switch to other languages to view the other contents.

4 CMS PLANS FOR YOU TO CHOOSE FROM

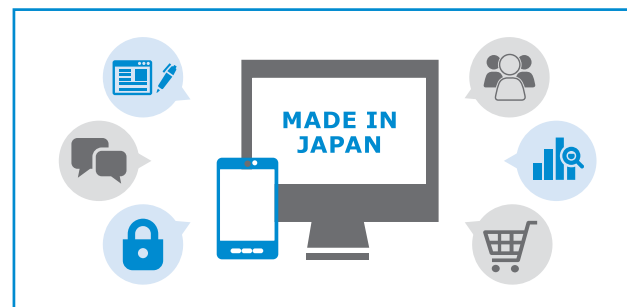

There are 3 types of most cost-effective plans available to choose from; shared server, dedicated server and licensed internal server.

5 CUSTOMIZABLE CLOUD CMS

Although RCMS is, a cloud based service, but it is highly customizable. You will be able to show your originality in your website.

6 RELIABLE SUPPORT

RCMS is designed and constructed by Diverta Inc., you can be assured of the service and support provided from customized and standard functions.

EVOLVING RCMS

CLOUD RCMS, ONE STEP AHEAD

MARKETING SUPPORT FUNCTION

Many companies start to automate marketing activity and RCMS also provides MA (Marketing Automation) functions to its clients. The MA functions contains basic functions like prediction of possibility for purchase with E-commerce.

AUTOMATICALLY UPGRADE VERSION

RCMS reduces heavy workloads of our users with the new updated technology. To help our users further by reducing operation problems, RCMS provides free beta version software as an approach.

E-COMMERCE AS A STANDARD FUNCTION

The trend of making ECommerce (EC) website has shifted to content marketing vision, where CMS functions play an important role in EC website.

RCMS made its progress for expansion of EC function based on content management method.

SHARING DEVELOPMENT MODEL

RCMS provides shared development for all users. Shared development is where the development cost of new models for your website is halved the price but the copyright belongs to Diverta. This will enable standardization of new function dramatically.

SECURITY | Automatically Security Update

RCMS has various security functions and provides them to large companies as well as banks. It is possible to upgrade security password, security access and encrypted security when it is needed.

SSL AT ANY TIME

RCMS is capable of changing all pages to HTTPS. This plays as a protection of interception or falsification.

ENCRYPTED PASSWORD

The sturdy but flexible password management security is available. This security system complies to the in-house strict regulations.

VULNERABILITY DIAGNOSIS

In SaaS plan, you can regularly inspect the platform vulnerability layer. It is used to keep a daily maintenance and secure condition.

SUPPORT | Reliable production support

RCMS is designed and constructed by Diverta Inc., and it keeps on evolving. We support our customers from the start of the operation, not just only on making website.

WEB MAINTENANCE AND SUPPORT

Should problems occur, our professional staff responds quickly and recover the website

SUPPORT FOR CONSTRUCTING

Training will be provided to the administrator to learn the know-hows to create and maintain a website on RCMS.

PARTNER SUPPORT

We do provide Partner Reselling System; you can become one of our agency and sell RCMS as your company's business product.
